---

Eric,  
I'm available Mon morning 11/5, but not in the afternoon, unless I move some things around.

Subject: Fw: Round 3 Gunderson TZW - Phase 2 Planning Meeting/Conf Call

The LWG would like to set up a meeting to discuss the strat core results from off shore of Gunderson during the week of November 5th. I spoke to Gene Revelas earlier about this. The coring went well, however an initial review of the core logs suggests that the gravel/sand zone does not daylight. Obviously, we will need to see the cross sections to get a better handle on this but I thought I would pass it along. Please let me know your availability.

Thanks, Eric

Subject  
FW: Round 3 Gunderson TZW - Phase  
2 Planning Meeting/Conf Call

Eric, Chip,

Please see message below from Christine concerning next steps for the Gunderson site. Please respond as requested below, with your availability for a conference call during the week of November 5.

cheers  
Valerie

Subject: Round 3 Gunderson TZW - Phase 2 Planning Meeting

Hi Jessica/Valerie, Please forward the following message to EPA to begin the planning process for a Gunderson TZW meeting for the week of Nov 5. Thanks! - Christine.

Hi Eric and Chip,

In accordance with the Round 3 Groundwater Pathway Assessment FSP, the LWG successfully completed stratigraphic coring work offshore of the Gunderson site on Friday, October 19. We are currently in the process of developing three new cross-sections to present the newly collected information. We expect to have these ready to send to you and your team for consideration next week, on Thursday, November 1.

As described in the FSP, we hope to meet with you and your team during the week of November 5, to resolve whether there is a need for phase 2 TZW sampling and the corresponding scope details. The schedule on this task remains tight because, as described in the FSP, if sampling is determined to be necessary, the window for collection of up-to-eight TZW samples is limited to November 19-21.

Valerie or Jessica will arrange the conference call. What is your availability during the week of Nov 5? Also, would you like us to use the same invite list as that used for the October 4 FSP scoping call?

Thanks, and feel free to contact me directly for more information.

Christine.
